Trustees.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the Citizens of Dunbarton:

The question of the best method of circulation of our books has been raised by various individuals. So far no change has been made. Your trustees have looked up the methods of several towns, but, in their opinion, find none better for the real good of our whole town's people than the present, if followed as well as we are really able.

Notwithstanding the foregoing, the trustees feel that, while they have the care of the library, they are servants and subject to the will of the people, and that in the near future a small number of volumes may be sent to out stations, under certain conditions, for trial. In this way we may determine what will best meet our needs.

Warner Library has been cited as a model library, yet if we were to follow its plan strictly, it would not work well for us. This library gives less than seven per cent. of her books to her out stations, which must last them two years.

Now seven per cent. of our 1,000 volumes would give but 70 volumes for our out stations for two years, which would not be more than a book a year for each natural borrower of our out stations, if we have them.

Other libraries send only surplus and duplicate books to out stations.

We believe every librarian, when he expresses his real convictions, will say that every book should reach its home shelf at least once in six weeks.

There has been a good circulation of books during the year.

While many have availed themselves of library privileges, yet many more might have, and received much good and pleasure if they had made a little more exertion.

Both librarian and trustees will be glad to coöperate in any satisfactory plan to increase the circulation of books.

Although our library is small, yet it contains information on many subjects, and we wish people from all parts of the town would avail themselves of it.

Some months ago it became evident that new borrower's cards must be procured, or a new charging system introduced. At a small additional cost the "Brown System" has been established, which, we believe, will be a convenience to both patrons and librarian. This is the latest and most approved system, and covers the most and is most expeditious for the librarian. By this system the borrower is not required to take away or bring back any card when books are wanted.

The installing of this system has caused a great deal of extra labor for our librarian, which has been cheerfully given, and we thank her for it.

Printed catalogue cards of the new books have been procured from the librarian of Congress at a small expense. It is the aim of your librarian and trustees to have an up-to-date library, and make the most out of the little we have to spend year by year.

The town has kindly placed a new stove in the library room.

At the present rate of increase more shelf room must be had within two years, hence it is necessary to consider plans for larger accommodations.

JOHN W. FARRAR,
JAMES E. STONE,
Trustees of Public Library.

REPORT OF LIBRARIAN.

FOR THE YEAR ENDING FEBRUARY 15, 1906.

To the Board of Trustees:

GENTLEMEN: We feel that the library is in a prosperous condition, although little change has been made during the past year.

Forty-one new books have been added to the library, one of which was a gift.

The circulation of books through the year has been 1,275.

The Brown charging system has been adopted which is considered one of the best charging systems. It was brought about by our very efficient trustees, who have worked very hard and faithfully in the interest of the library.

Respectfully submitted,

MABELLE F. KELLEY,
Librarian.

THE STATE OF NEW HAMPSHIRE.

To the Inhabitants of the School District in the Town of Dunbarton Qualified to Vote in District Affairs:

You are hereby notified to meet at the Town House in said district on the tenth day of March, 1906, at 10 o'clock in the forenoon to act upon the following subjects:

1. To choose a moderator for the coming year.
2. To choose a clerk for the ensuing year.
3. To choose a member of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.
6. To choose agents, auditors and committees in relation to any subject embraced in this warrant.
7. To see how much money the district will raise and appropriate for the support of schools.
8. To transact any other business that may properly come before said meeting.

REPORT OF SCHOOL BOARD.

In following the time-honored custom of presenting an annual report of the schools to the tax payers of the town, we feel that we can do no better than to present the schools themselves, and the work that has been done the past year. But, because we are more familiar with the schools and the work than many, we would present a few facts. By reason of the state law the school money has been increased, so that we have been able to lengthen the school year to thirty-three weeks. This is an object that school boards have long desired to obtain. We feel that the past year has been one in which good work has been done by both teachers and scholars. The whole force has been spent in teaching; but very little friction has been reported between teachers and scholars; the relations have been pleasant. Two of the schools have been able to retain the same teachers as last year. The others have been obliged to make changes. That our schools have accomplished good work in the past is evidenced by the rank that some of our boys and girls have taken when they entered the high schools.

We have graduated several the past year, and there are more in the schools now that are qualified to enter higher schools.

No changes have been made in the text books, although we think some changes would be beneficial. New books stimulate the ambition of scholars; and improvements are constantly being made in school books.

We have placed in two schools, outline maps of New

Hampshire, and the scholars are making their own maps, and studying geography with Dunbarton for a basis.

We take this occasion to acknowledge the receipt of a large number of volumes of school books from Dr. Towne, which are in the Montalona School, and the thanks of the district are due him for his kindness.

In the matter of repairs, but very little money has been expended, not so much as ought to have been. More will have to be laid out next year. Boards are always reluctant to use school money for repairs, but with more money in sight the houses that we use ought to be kept up in good condition.

We wish that we could say something that would influence parents to take the trouble to become better acquainted with the teachers and the work of the schools. We often have complaints made to us of dissatisfaction with the teacher and school, and find upon inquiry that the matter has not been discussed with the teacher. Now the teacher is your willing servant, and her success is in satisfying the patrons of the school, and in carrying out the wishes of the parents so far as possible. We certainly ought to be able to work with a teacher in advancing the interests of our own children; and not oppose her in her efforts to benefit us.

Respectfully submitted,

FREDERICK L. IRELAND,
DANIEL STORY,
ANNIE M. BURNHAM,

School Board of Dunbarton.

REPORT OF SCHOOL DISTRICT TREASURER.

OLIVER P. WILSON, treasurer, in account with the
Dunbarton school district for the year ending February 15, 1906.
